# Press Release

## Sencommunications, Inc. Celebrates 20 Years as Woman-Owned Telecommunications Provider

### Sencommunications, Inc. of Tampa, Florida marks its twenty-year anniversary in February 2009.

Tampa, FL, February 2, 2009: Sencommunications, Inc., a woman-owned national telecommunications provider headquartered in Tampa, Florida, is celebrating its twentieth anniversary this year. Founded in February of 1989 by Frances and Paul Senory, Sencommunications has grown from a local distributor operating out of the Senory's residence to its current 25,000 square foot center of operations.

"As we celebrate this milestone, it's important to recognize the influence of the foundation the company was built upon," states Vice President and General Manager Kathleen Blackmon. "The owners opened Sencomm with professionalism, integrity and dedication to customer service as the cornerstones of their mission statement. You can see that reflected today in our business model and in our employees."

While Frances Senory has always been the President of Sencommunications, it was in 2001 that the company received certification as a Women's Business Enterprise by the Women's Business Enterprise National Council. Since its certification, Sencomm's status as a WBE has led to several industry awards, including being ranked as a top successful woman-owned business in the Tampa Bay area by the *Tampa Bay Business Journal* for three consecutive years (2006-2008).

In the past year, Sencommunications expanded its national coverage to include Public Sector and Unified Communications products, with sales representatives serving the mid-west and California markets. Additionally, the company became a Premium Partner with global headset manufacturer

Plantronics®, in recognition of Sencomm's exemplary service, commitment and support. This expanded partnership, building on the two companies' existing fifteen-year relationship, increases Sencomm's scope and coverage of the Plantronics® product line and the ability provide an even higher level of service to customers nationwide. This commitment to customers extends to all facets of the company.

President Frances Senory states, "As Sencommunications continues to grow and move forward in hopes of comprehensively satisfying the ever-expanding needs of the telecommunications market, we look forward to staying on the cusp of the latest technologies."

Sencommunications plans to celebrate its twentieth anniversary with its employees and customers through special events and promotions throughout the year.
